

## NEFCU welcomes leader in tech

By: Bernadette Starzee ⌚ June 28, 2019

Daniel Ford – Chief Information Officer, NEFCU

Daniel Ford is the new chief information officer at NEFCU, a credit union based in Westbury. He is responsible for all aspects of information technology, cybersecurity and digital banking.

Ford brings more than 20 years of information technology, cybersecurity and risk management experience to his new role. Most recently, he was chief information officer at First Source Bank in South Bend, Ind. He has also held positions with Silent Circle, McAfee, BAE Systems, SRA, Fixmo and Unisys.

Ford holds a Doctor of Science in information assurance from Capitol Technology University.

“Our vision is to be the most innovative, member-focused credit union in the region. To accomplish this,

we must embrace and introduce more complex technology, internally and externally, that is overseen by a highly accomplished, visionary leader in technology,” John Deieso, president and CEO of NEFCU, said in a statement. “Dan is that leader who will align the current and future of business of NEFCU with forward-thinking technology.”
